INTRODUCTORY.

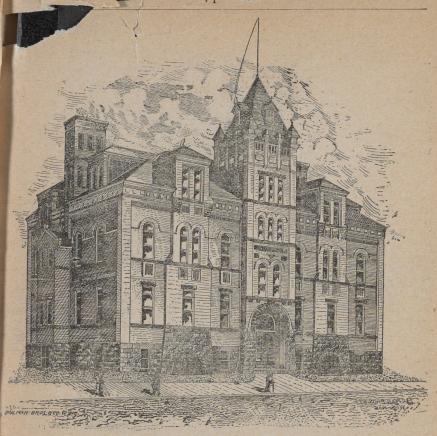

1899.

The Publishers have much pleasure in submitting herewith the annualition of their City of Winnipeg Directory. The book this year, as in former year is divided into three parts: First, A complete Alphabetical Directory of Winnipeg Secondly, A Street Directory of Winnipeg; Thirdly, A Classfied Directory Manitoba, the Northwes, Territories and Winnipeg.

The preparation of Directories, perhaps, as vividly as anything else impresses the compiler with a sense of the progress of the country in all that constitutes material prosperity. The annual changes in the Cities, Towns and Villages show a larger increase this year than in former years. The tables a statistics on the following pages shows the very satisfactory progress made in Agriculture. The Banking and Postal Returns continue to show Winnipeg well up as the third city of the Dominion.

POPULATION.

The Population has made a larger increase this year than any other previous year. There are fewer vacant stores and dwellings in the city at present than for many years; while the changes of occupations and addresses are much more properties.

namerous than in former Directories.

There is some difference between the City's Assessment Commissioner's Estimate and ours but when, it is taken into consideration, that the Directory's Estimate is one year later, it will be found that our figures are about the same. A large number come to the city every winter to attend the various colleges and schools, many farmers spend their first winter or two in the city, where they find employment and return to their farms in the spring. From this fact our Hotels, Colleges and Boarding Houses, contain a large number, all of which greatly increases our population in the widter months and which are not counted in the City Census.

The thoroughness and perfect system, characteristic of themethods of Directory Publishers, being bound by no law or statute as to who should be counted, the fact that they are here is all that we want to know. Where they came from or

how long they intend to remain is not considered.

The following Table gives our estimate of the population of the City of Winnipeg for the past twenty-four years:

All of the information given in this Directory, has been compiled in the most systematic and reliable manner. Every house in the city, has been visited by experienced directory canvassers, who have diligently plied their questions, for the names of all the members of the family, for relatives, lodgers and boarders, and for persons who may reside upstairs or down, or in the rear, or for others, who, though absent, may make their homes about the premises. This canvass of the residences, however, was not sufficient for directory purposes, and every office, store, factory and business block was visited, and the payrolls and lists of employes were copied. Thus, the publishers secure in duplicate, all the names taken at the residences, and, besides, all the names of persons who are lodgers and boarders in places where their names are unknown or where they may have been forgotten, also the names of those who sleep in offices or rooms in business blocks, stores and factories. By this duplicate system of canvassing names, omissions and errors are reduced to a minimum.

TO FIND A NAME You must know how to SPELL IT.

DIRECTORY BORROWERS.

Many are the complaints of those who regularly patronize the Directory that they are bored so much by borrowers; not the stranger or private citizen who steps into the office, looks at the Directory, and goes out, but merchants, business men, who continually need it for reference yet are too close-fisted to buy one. These are the individuals who carry off our Directory "just for a few minutes," which generally means a FEW DAYS unless you send for it before; then you have scarcely housed it before some one else presents the request "please lend me your Directory for a few minutes." Perhaps you won't see it again for a week; yet this same borrower will tell our solicitor that he has no use for a Directory, he "knows everybody" and "everybody knows him,"—perhaps too well.
